HANDMADE CREATIONS

Traditional weaving, handcrafted textiles, and artisan gifts in Masouri, Kalymnos

Argastiri Handmade Creations is a local Kalymnos craft shop and weaving workshop celebrating the art of the loom. Rooted in traditional techniques and guided by a love of creativity, the shop offers handwoven bags, textiles, and artisan gift items that connect island craftsmanship with contemporary design.

The Story

As soon as a yarn of silk or cotton or wool or even a snippet of rag makes its way into the “Argastiri” and bonds with our drive, talent and skill at the loom, it promptly turns into a little masterpiece of the Art — because Weaving is an Art.

It is thanks to our profound knowledge of this Art and our insatiable love for creativity that we feel sufficiently confident to track down unique patterns, based on traditional designs and improvise on them so as to suit today’s trends and needs.

So, as you stroll through the stone-paved Patithries area of Kalymnos, with its sturdy buildings of olden days, its quaint “pezodromos” road — full of local tradespeople and small taverns — come along and make your acquaintance with the magical world of the Loom, at the “Argastiri”.

Craftsmanship at the loom

Color, texture, and traditional weaving materials

Custom Chalk Bags for Climbers

Kalymnos is a climbing island, and Argastiri weaves for it: chalk bags handwoven at the loom, each in its own colours and pattern. Ask in the shop to have one made for you.
